METSI, AN ECO-LODGE

We pride ourselves in being one of the only true eco-lodges in Welgevonden Game Reserve. Our energy is sourced exclusively from renewable solar power, ensuring that our carbon footprint on the environment is minimal. Starting with our eco-friendly sewage system, to the use of "green" products exclusively, sourcing of our crystal clear water from our own borehole, and use of eco-friendly materials, Everything is done to ensure that the lodge blends in with its natural surroundings, and that we have as little impact on our environment as possible.

WILDLIFE

The reserve offers Big Five game tracking as well as many species of antelopes and superb bird-life. Everything you can expect in South Africa is there...
